hereCliP-ComeE – Climate Protection Competences for European Historic Houses

We are pleased to invite you to a **three-day in-person training on Energy Efficiency for Historic Houses**, organised as part of the **CliP-ComeE (Climate Protection Competences in European Historic Houses) project**. This training is designed for historic house owners, managers, and staff seeking practical and certified knowledge on improving sustainability while preserving cultural heritage.

Training Details

Location: Kartause, Mauerbach, Austria

Date: 22-24 April 2025

Cost: Participation is free

Capacity: Limited to 10–15 participants

Certification: ECQA Certificate from The European Heritage Academy

Why Attend?

Led by experts **John Edwards** and **Gerald Wagenhofer**, this hands-on training will cover:

- Sustainability principles and intervention strategies
- Energy efficiency measures tailored for historic houses
- Practical case studies and fieldwork
- Navigating European and national regulations
- Certification to enhance your professional credentials

The full agenda is attached [here](#) for your reference.

How to Register

To secure your place, please send an email to gerald.wagenhofer@ubw-wagenhofer.at as soon as possible, as spaces are limited.

For further details, visit <https://www.clip-come.eu/> or contact us with any questions.

We look forward to welcoming you to this valuable training opportunity in Mauerbach.
